And herein we helieve the Union men of Kentucky are at one with the great body en the Northern people without respect to party. Precisely herein, however, some of the public leaders of the North differ with the Union men of Kentucky. These leaders are divided into two classes, one of which is in favor of the war hnt against the constitution, while the other is in favor of the constitution but against th war. The former class is composed of the ab, elitionists and other radicals, the latter of the nltra Democratic partisans. On the one hand, the radicals are apt to faney, that, because we are ardently for the war, we care little or nothing for the constitution, and are prepared to join with them in esseing it down and trampling it into the dust; while, on the other hand, the ultra Democratic partisuns are apt to fancy, that, because we are ardently for the constitution, we care little or nothing for the wnr, and are prepared to join with them in active and indiscriminate and vindictive hostility to the Executive in the very crisis of this struggle for the existence of our country. Unfortunately, however, the true men of the North are united with these leaders in opposition to each other, so that we eannot strike gonerally in hehalf of either of the great conflicting divisions there without incurring the risk of crippling a friend and serving a foc. We of the South early foresaw this result as prohable, and we have done everything we could to nvert i': but our efforts have been fruitless. These reports have been so shaped, in some instances, as to leave the imreseion on the public mind that the Colonel had, in his own responsibility, and perhaps for politi-alor parsonal motives, undertakon to blast the reputation and destroy the usefulness of one of the best Generals in the army. Furthermore, our people were greatly surprised and mortified, on Friday last, at the telegraphic report that the War Dopartment had ordered the arrest of Col. On Stunday morning Col. Norton was at home and of course jolt somewhat mortified at the man ner in which hit name had been used.

The Colonel, it seems, was selected as bearer of despatches from the officers of the arms in the

THE ELECTION .- Although there was great sollcilade indulged by the different candidate and their fileni's as to the re ult of the election yesterday, the election preceeded quielly end or dealy, thanks in a great measure to the admira ble police errangements improvised by our mili tary anthorities end our worthy Cl.luf of Police It will be seen by reference to our tables of returns that the vote was not large, although Ite various condidates and their friends labored vigor curly to bring out the entire vote.

THE COMING CONCERT.-The promits of the corcert at Masonic Temple on Thursday evening hy those brilliant srtistes, the blisee De Rocde, has ex ited a feeling of lively interest in musica circles. Both as vocalist and planis, the young ladies occupy the very front rank in their profes sion, as criticisms from the highest sources emply prove. Miss Eugenie mey not possess the won derful power accorded to a great master, but there is a sweetness and dilicecy, and skill i her performance which, perhaps, he never been approached by performers who have preceded her. Miss Maria's vocal zution has been compared to that of Mrs. Cooper, but many prefer the sweet cadences of her voice to that of her fair rival. The addition of Messrs, Whipple, Boutwell, and other smateurs, will give the concert a local interest which few enterlainments of the kind have ever possessed.

ANTICIPATED ATTACK .- As the Lancaster No 4 paseed up the river on the 2d, the people of Caseyville, Ky., were much excited. The Union men were erming themselves in expectation of an atteck from the recels, who were stationed three or four miles beck of the town, numbering from three to four hundred. They had threuteued to atteck the town that night, the boat being armed with a six pound cannon and forty Entield rifles The boat was anchored in the middle of the stream and lay there all night. The robal pick ets advenced within half a mile of the river, but mide no attack. They expected an attack cu Sauday night.

Many of our leading citizens have read with feelings of regret the announcement that cur military authorities contemplated laking poesession of the Male High School building for the use of the rebol prisoners conlined in this city. The movement will be a serious irjury to the canse of education in the city. It is suggest ad that there are other buildings in the city botter adapted to prison purposus than the High School building, while there are no aparlments that can be obtained that will be suitable for educational

In the Journal of yesterlay there was an aunouncement that Geo. S'anghter was arrested and lodged in the Military prison. Now George oughter is one of the most loyal mee in Ke tncky, and was not in the city at the time of the arrest referred to. It was James B. Stanghter who was arrested, and wa entertain no doubt that he is perfectly innocent of any complicity in tha traussction for which the company he was in were arrested. There is not a mora harmlass man in the State than James B. Slaughter.

THEATICE -Wa were too boay in receiving the alection returns last night to atland the theatre, but from the shouts of laughter and the roses of applause, the no'se of which was wafted across the street lo our effice, we knew there was a crowded audience and graat erjoyment. The same bill will be repeated to-night, end, as Mr, Frank Drew is one of the raciest comedians and Mrs. Heuri one of the best singers on the stage, we can promise all who attend lots of satisfaction.

Exprus of Neoroes. -- We learn from the New Athany Ledger that there has been a perfect exodus of negroes from that city, especially the males. The recant riolons proceedings there have had the effect to create a perfect pin'c among the ungroes, and every one who can do so is leaving Some thirty families hava left so far, and a large number of young person; who are engaged upon the river, but have made New Albany their homes have changed their residences to Kentucky.

Soicide AT LAFAYETTE .- Dr. William Irvin of Lafavette, Ind., committed suicide at his room lu that city ou Thursday last, as is supposed by laking strychnice. Dr. 1. was a man of fine mental endowments and rare culture, a gradoate of the Louisiann Medical Colluge, and bearing the highest testimoulals of a anccessful practice, he removed from New Orleans to the Northwest about ten years ago.
